

## **Technical data sheet**

## FSTF24-S US

Fail-Safe actuator used in typical Fire and Smoke damper applications

- Torque motor 18 in-lb [2 Nm]
- Nominal voltage AC/DC 24 V
- Control On/Off
- @ 250°F [121°C] for 30 min
- 75 s, <25 s Motor/Fail-safe
- 2 x SPST

## **Technical data**

| Application            | The FS series of spring-return actuators are designed for the operation listed fire/smoke dampers in ventilation and air-conditioning systems                                                                                                                                                                                                                                                                                                                    |                                                                              |
| Operation              | The actuator is mounted in its fail safe position with the damper blad<br>applying power, the actuator drives the damper to the open position.<br>tensioned at the same time. If the power supply is interrupted, the sp<br>back to its fail-safe position.                                                                                                                                                                                                      | The internal spring is                                                       |
| Typical specification  | All smoke and combination fire and smoke dampers shall be provided with Belimo FSTF, FSLF,<br>FSNF, or FSAF series actuators. All substitutions must be approved before submission of bid.<br>Damper and actuator shall have UL555S Listing for 250°F and/or 350°F. Actuator shall have<br>been tested to UL2043 per requirements of IMC 602.2 and NEC 300.22 (c). Where position<br>indication is required -S models with auxiliary switches shall be provided. |                                                                              |

TFB(X) crankarm adaptor kit (T bracket included).

TFB(X) crankarm adaptor kit (includes ZG-113).

Weather shield 13x8x6" [330x203x152 mm] (LxWxH)

Weather shield 406x213x102 mm [16x8-3/8x4"] (LxWxH)

Mounting kit

for TFB(X)

ZG-TF2

ZG-TF3

ZS-100

ZS-150

ZG-TF112

 $\swarrow$  Actuators may be powered in parallel. Power consumption must be observed.

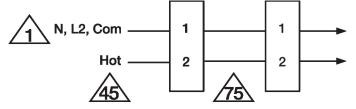

🛣 S4 makes to S6 when actuator is powered open.

ሕ Auxiliary switches are for end position indication or interlock control.

🕂 Double insulated.

Ground present on some models.

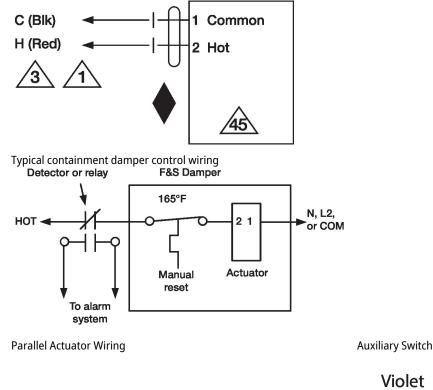

Meets cULus requirements without the need of an electrical ground connection.

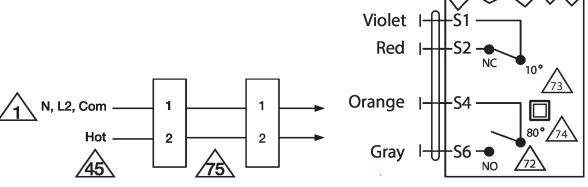

Parallel Actuator Wiring

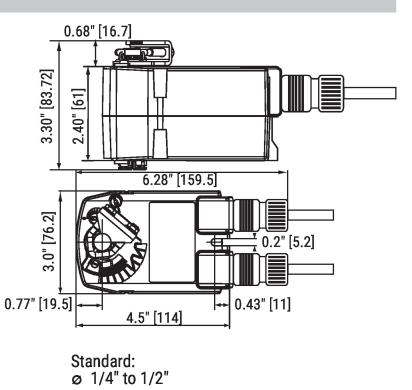

Wiring diagrams

AC/DC 24 V

□ 1/4" to 5/16"
