

RCB-1 APPLICATION

The RCB-1 is a ship loose single Remote Control Box (RCB) with a Red Button momentary push switch and LED lights for use with smoke and fire/smoke dampers. The LED lights are a red light for closed damper and a green light for open damper. The RCB-1 meets the requirements of the International Fire Code (IFC) and National Fire Protection Association (NFPA) standards for testing and maintenance of some and combination fire smoke dampers.
